That meet will be followed by a mixed-breed season at Los Alamitos, beginning on April 15...

THE FIRM...The Fairplex repair firm will make an encore appearance next month when our organization once again participates in Christmas in April. Don Bellows and Don Delano will be the "captains" for the house that will be renovated by Fairplex employees. This year's official Christmas in April day is Saturday, April 30, but the effort will likely involve most weekends and many weekdays throughout April. The "Fairplex" house is owned by Edith Garcia, who has two sons, ages 21 and 15. The family has experienced financial problems for the past two years. She works for a school system but has had her hours cut. Her husband deserted the family in December, leaving the house in need of major repairs. They started roof repairs more than a year ago, but the heavy rains caused the house to flood and led to more damage. Reportedly, last year's house was in great shape compared to this year's project, meaning we will need the efforts of as many employees as possible. We'll have details as they become available...
